Subject: RE: Subject: Request for County to prepare supplemental EIR and hold public hearing for Highlands construction project

Hi Nancy and Howard,

The County has considered the requests from interested members of the public for a 15-day extension of the scheduled June 17, 2021 close of the public review period for the Highland Estates EIR Addendum. The request has been granted to allow the public more time to review the EIR Addendum and appendices, with the County's decision on the project modification request to be made after July 2, 2021.

Thanks

ear Ms. Leung,

I'm writing again to not only request further review on the Highlands project but to indicate just how angry I am at the process. The building that was permitted so many years ago was not nearly the size of the project now being pushed through. I am appalled that I will now have to live through so much additional excavation, mess, and noise. I use Ticonderoga multiple times per day and concerned at the disruption for so much additional time. That hillside is not stable as has been indicated by the sinking of Ticonderoga. This is NOT good planning. We need the supplemental environmental impact report and to hold public community hearing on the project.

Thank you,
Nancy and Howard Bott
