**Subject:** RE: Request for more time to review the "Highland Estates Subdivision Project Addendum to the Highland Estates Final Environmental Impact Report"

Hi Mitch,

The County has considered the requests from interested members of the public for a 15-day extension of the scheduled June 17, 2021 close of the public review period for the Highland Estates EIR Addendum. The request has been granted to allow the public more time to review the EIR Addendum and appendices, with the County's decision on the project modification request to be made after July 2, 2021.

Thanks

Dear Ms. Leung,

I have begun reviewing San Mateo County's notification letter dated May 3 with subject "Consideration of a proposed Minor Modification to an approved Resource Management (RM) Permit (PLN2006-00357) for the development of Lots 5, 6, 7, and 8 (BLD2016-00161 through BLD2016-00164), in the San Mateo Highlands Area". The linked materials, specifically the project addendum "Highland Estates Subdivision Project Addendum to the Highland Estates Final Environmental Impact Report SCH No. 2007052068" run to nearly 300 pages. It is not reasonable the review this quantity of materials within the current deadline of May 17.

I request that the County provide an additional 45 days beyond May 17 to give the Highlands community an opportunity to read and respond to this substantial new documentation. I'm particularly concerned about the impact on landslide risk, which has been a recurring problem in the Highlands, and impacts more than the construction site itself.

Best regards,

Mitch Trott
