Dear Coastside Design Review Officer,

I am writing to you regarding agenda item #2, the house built recently at 600 El Granada Blvd.

As an El Granada resident, who takes a lot of walks around the neighborhood, I find the house at 600 El Granada Blvd to be a beautiful addition to the neighborhood. The house is tastefully designed to fit into the environment. The large windows and natural wood siding on the house help it to blend in well amongst the other homes and the forested back drop. As you review the design of this home, please know that as a fellow resident, there are no complaints about the presence or appearance of this beautiful new addition to the neighborhood.

Most Sincerely,
Sara Neale
